

# Behaviour in Starfish Nursery

Our behaviour reward system fully promotes the whole school values and gives children increased opportunities to earn stickers for making positive behaviour choices in Starfish.

We have all of the values characters on display in the nursery so that the children understand the behaviour we are looking for. It is a great positive learning tool that promotes collaboration, independence, creativity, emotional intelligence and community.

**Connie**

I share with my friends

**Craig**

I make great things

**Eddie**

I am kind

**Isabella**

I can do it on my own

**Stanley**

I can look after  
everything in Starfish

Children will learn about each of the characters and what they represent. These characters will continue to be a focus as children transition into the main school and behaviour expectations progress. Our children will start everyday with their name card on a happy green colour and if they show one of our values their name card will be moved to gold. They will also be given a special sticker to wear home.

Our preschool children will be using the whole school behaviour system. This will enable them to get ready for the expectations of school and build a sense of responsibility. If they make a negative behaviour choice, their name card will be moved to orange and they will have a chat with an adult. If they make a significant negative behaviour choice they will be moved to red and miss 5 minutes of playing time in order to reflect. Again if they show our values they will be moved to gold and earn a special sticker.
